A HEALTHSTREAM® COMPANY

Your Source of Truth

Aiming Higher to Ensure Your Patients Receive Competent Care From Qualified People

About Verity for Health Systems and Health Plans

With meticulous precision, Verity revolutionizes any medical staff office or CVO operation through exclusive capabilities built with health systems and health plans in mind. Our entire ecosystem – platform, content, data, community, and services – harnesses the power of provider data through a single source of truth to serve as your comprehensive solution for all your credentialing, validation, privileging, enrollment, and evaluation needs.

Recruit → Apply → Validate → Privilege & Appoint / Enroll & Network / Onboard → Evaluate

hStream™

Verity™

verity™

A powerful solution that unites platform, content, data, services, and community to transform credentialing, privileging, enrollment, and evaluation processes for healthcare organizations. Verity delivers a single infrastructure that serves as a foundation for managing the entire provider lifecycle.

hStream™

An ecosystem built to extend and optimize the power Verity, delivering a powerful, secure connective tissue that accelerates data flow, drives enterprise standardization, and enables you to maintain an accurate master provider database.

Our Solution

Recruit
Enables data driven insight from current provider data to power recruiting efforts.

Apply
Simplifies the application and reappointment processes for providers with an intuitive, online experience.

Validate
Reduces the labor-intensive processes required to validate and monitor license, sanction, and exclusion data for your entire workforce.

Privilege & Appoint
Privilege automates and standardizes privilege granting and evaluation with an industry-leading, library of delineated privileges while Appoint ensures reviewer clarity with a centralized view of validated provider files.

Enroll & Network
Automates the provider enrollment process with the largest, continuously-updated library of pre-formatted payer forms while Network enables Health Plans to leverage validated provider data and accelerate contract initiation, roster changes, and enrollment renewal.

Onboard
Ensures fast onboarding and provider satisfaction with a one-stop shop for external stakeholders and providers.

Evaluate
Automates provider competency management to ensure compliance with regulatory requirements and quality of care.

Consulting

Verity's consulting team has worked with 100s of organizations to transform the way that credentialing, privileging and enrollment functions are performed.

Training

Our training is structured and customized around your business needs for both your workflow architects and end users to accelerate your ROI.
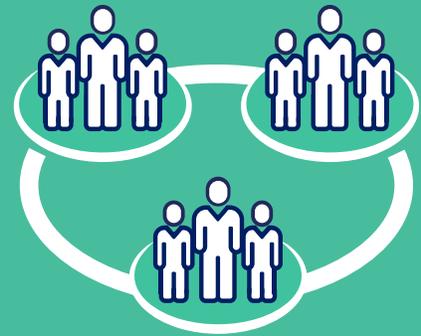

Implementation

Verity's proven and industry-leading 5-phased approach is led by a cross-functional project team that includes data, consulting, training, project managers, and sponsors, each person dedicated to your success.

Plan   Design   Configure   Launch   Optimize

Customer Community

Imagine if your team expanded beyond your own organization to a bustling community of hospitals, health systems, medical groups, and like-minded individuals. Verity Thrive is YOUR community.

VerityCVO

Whether you're a health plan, surgery center, critical access hospital, LTAC, or any other type of healthcare organization, you can rely on Verity's NCQA-certified CVO to handle all your initial and re-credentialing files either in an overflow or full-service capacity.
